

Dear Colleagues,

Thank you for taking part in the California Advanced Manufacturing Summit (CAMS) via webcast. The summit is a response to President Obama's state of the union call for an expansion of the National Network for Manufacturing Innovation (NNMI) with the opening of new Institutes for Manufacturing Innovation (IMI). The purpose of CAMS is to bring together statewide partners in order to begin setting the platform for advanced manufacturing in California. This summit will be a coordination of stakeholders to craft California's proposal to compete for new manufacturing institutes and explore what it would take to build an open consortium geared toward making CA a global leader in advanced manufacturing.

We look forward to your active participation. You can join the CAMS conversation and participate in multiple ways:

Webcast Links:

Join the CAMS webcast at 9.00 AM PST via web and mobile by clicking one of the following links ...

- For Mobile Users please follow this Ustream link http://bit.ly/MblCAMS
